PROJECT BRIEF

INDONESIA

Palm kernel shell thermal oil heater

Process heating for leather roller embossing

RATED HEAT DUTY

1,200,000

kcal/h

FUEL

Palm kernel shells

(PKS)

LOCATION

Indonesia

Project photograph retouched for presentation, including lighting, cleanup and pipe finish. Original published watermark retained.

Who supplied, installed and commissioned it

EQUIPMENT SUPPLY

JIELI supplied the complete thermal oil heater equipment package.

INSTALLATION

The customer carried out installation.

COMMISSIONING

JIELI sent personnel to the site for commissioning.

Planning a similar project?

Send your required heat duty, oil supply and return temperatures, PKS size, moisture and ash information, and site location.

Equipment scope and installation / commissioning responsibilities must be agreed for each new project.
